Title: Corrigendum to "Bounds for the solutions of S-unit equations and decomposable form equations II", Publ. Math. Debrecen 94 (2019), 507–526

Author(s): Kálmán Győry

There is a misprint in Proposition 5 of the paper under consideration, the minus sign has been left out from the lower bound for $\log|1 - \alpha\xi|_v$. Proposition 5 is an auxiliary result in the paper. As is quoted, in its correct formulation it should be Theorem 4.2.1 from the book of J.-H. EVERTSE and K. GYŐRY, *Unit Equations in Diophantine Number Theory*, Cambridge University Press, 2015. Since in the paper Proposition 5 is used in its correct form, the misprint mentioned above does not require any other changes in the results and in their proofs.
