

## On the $n$ -iso-autoclinism of groups

By BEHNAZ TOLUE (Sabzevar) and AMIN RAFIEI (Sabzevar)

**Abstract.** The present paper deals with some properties of  $n$ -iso-autoclinism. Moreover, it is proven that if  $\text{Aut}(G)$  is finitely generated and  $K_{n+1}(G)$  is finite, then  $K_n(\frac{G}{L(G)})$  is finite.
