

Order of multiple rational Fourier coefficients for functions of generalized Wiener class

By HARDEEPBHAI J. KHACHAR (Vadodara) and RAJENDRA G. VYAS (Vadodara)

Abstract. The order of magnitude of single and multiple rational Fourier coefficients for functions of the generalized Wiener class is estimated. Thus, these results generalize already existing analogous results of Fourier coefficients, where the order of magnitude of single and multiple Fourier coefficients for functions of the same generalized class were estimated.
